Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Trade Information Unit
External Trade Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 995-6305) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

Newfoundland and Labrador	Zenith 0-7037
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192
Quebec	1-800-361-2831

Northwest Territories (area served by NorthwesTel Inc.)	Zenith 2-2015

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7.

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Sous-section des renseignements sur le commerce
Division du Commerce extérieur,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-6305) ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Un service d'appel interurbain sans frais est offert, dans toutes les provinces et dans les territoires, aux **utilisateurs qui habitent à l'extérieur des zones de communication locale** des centres régionaux de consultation.

1. **Source of Statistics:** Export documents collected by Canada Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, crude petroleum and natural gas exported by pipeline are reported by companies directly to Statistics Canada.
2. **Timing:** Until July 1979, statistics for a month included all shipments for which Customs documents were received at Statistics Canada up to, and including, the last working day of the month. Starting with data for August 1979, the closing of the statistical month is defined according to the last calendar day of the month, based as closely as practicable, on the date of clearance from Customs. Individual shipments may not be recorded in statistics until some time after their arrival or departure because of administrative procedures which permit late filing of documents. Trade in electricity, exports of both crude petroleum and natural gas, and imports of "Swap Oil" from the United States for a given month are included in the statistics for the following month because they are collected too late for inclusion in statistics for the month indicated.
3. **Coverage:**
 - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have since been changed in form by further processing and then exported.
 - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or blending are not considered as changing the condition of imported goods.
 - c. **Total Exports:** These statistics are the sum of a. and b. above.
 - d. **Exclusions:** The following commodity movements are excluded from export statistics (being however recorded separately as Special Transaction — Non-trade in Table 5): settlers' effects; private donation and gifts; identifiable tourist purchases; goods shipped to Canadian diplomatic or military personnel abroad or by foreign representatives in Canada; temporary exports for exhibition or competition, including films for processing. Bunker supplies and ships' stores sold to foreign vessels or aircraft in Canada, temporary exports (other than contractors' equipment shown under commodity code 970-20) and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
4. **Classification:** Commodities are classified to the *Export Commodity Classification* (XCC), which is based on the "Standard Commodity Classification" (cf. cat. no. 12-502, Statistics Canada).
1. **Source des statistiques:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes canadiennes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur les exportations d'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national d'énergie, tandis que les compagnies exportatrices de pétrole brut et de gaz naturel par oléoduc fournissent directement leurs rapports à Statistique Canada.
2. **Période:** Jusqu'à juillet 1979, les statistiques d'un mois donné visaient toutes les livraisons pour lesquelles Statistique Canada a reçu des documents de douane jusqu'au dernier jour ouvrable du mois. À partir du mois d'août 1979, la fin du mois statistique correspond au dernier jour du mois civil où s'effectue, dans la mesure du possible, le dédouanement. De diverses livraisons peuvent ne pas être prises en compte dès leur arrivée ou leur départ à cause de la procédure administrative qui donne lieu à une présentation tardive des documents. Le commerce d'énergie électrique, les exportations de pétrole brut et de gaz naturel et les importations selon l'arrangement avec les États-Unis pour des échanges de pétrole brut d'un mois donné sont présentés dans les statistiques du mois suivant parce qu'on obtient les données trop tard pour qu'elles puissent faire partie des statistiques du mois de référence.
3. **Couverture:**
 - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau puis exportées.
 - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou l'assemblage ne modifient pas l'état des marchandises importées.
 - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
 - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (ils sont toutefois classés séparément comme Transactions spéciales — hors commerce dans le tableau 5): les effets d'émigrants; les dons et cadeaux privés; les achats identifiables des touristes; les marchandises expédiées aux diplomates ou militaires canadiens affectés à l'étranger ou par les diplomates étrangers au Canada; les exportations provisoires pour les expositions ou les concours, y compris les films exportés en vue de leur développement. Les approvisionnements de soute et de bord vendus aux navires et avions étrangers au Canada, les exportations provisoires (autres que le matériel des entrepreneurs, qui apparaît sous le code des produits no 970-20) et les marchandises qui séjournent temporairement en transit en territoire canadien, ne figurent dans aucune statistique.
4. **Classification:** Les marchandises sont classées dans la "Classification des marchandises d'exportation" (CME) qui se fonde sur la "Classification type des marchandises" (no 12-502 au cat. de Statistique Canada).

5. **Country and area of destination:** Exports are classified to the country to which they are consigned at the time the goods leave Canada, i.e. to the furthest known destination. (Many primary products are shipped to entrepôt points, particularly in Europe, for re-export to the ultimate destination which is unknown when the goods leave Canada.) Statistics are compiled and presented for the individual countries listed on page 10 of this report. A classification of countries with a statement of territorial limits used for statistical purposes will be found in the January issue of this publication. Amendments effective in any year are listed in the blue pages of the January and December reports for that year. The "principal trading area" shown in some tables include groupings which are defined as follows:

Other E.E.C.: Belgium, Denmark, France, Germany (F.R.), Ireland, Italy, Luxembourg, Netherlands and Greece (effective January 1981). The United Kingdom is also a member of the E.E.C. but is shown separately because of the importance of its trade with Canada.

Other O.E.C.D.: Austria, Finland, Iceland, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D. — The Organization for Economic Cooperation and Development).

Other America: This group includes all countries and territories of North and South America (other than the United States and Canada) including Greenland, Bermuda and Puerto Rico.

6. **Quantities:** Tables 3 and 5 show quantities, where available, in terms of the units specified for each class in the "Export Commodity Classification", (cf. above), and defined on page 8 of this report. Table 4 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity. Measures of weight or volume exclude any packing required for shipment; and numbers refer to complete (or substantially complete) units exported, excluding parts.
7. **Valuation:** Exports are recorded at the values declared on export documents, which usually reflect the actual selling price or, in the case of non-arms-length transactions, the transfer price used for company accounting purposes. Most exports are valued at the place in Canada where they are laden aboard a carrier for export (e.g. mine, farm or factory) but a significant proportion of exports by water or air reflect values which include transportation charges to the port of export. Some overland shipments to the United States are recorded at a value which includes part or all of the transportation charges to the ultimate destination because such transportation charges cannot be identified and removed.
8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 10 of this report. The letters "n.e.s." mean "not elsewhere specified".
9. **Revisions:**
- a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the "Preliminary Statement of Canadian Trade" and in the Summary of External Trade (65-001) have not been audited for reporting or processing errors with the exception of transactions of \$1,000,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.

5. **Pays et région de destination:** Les exportations sont attribuées au pays vers lequel les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue. (De nombreux produits "primaires" sont expédiés vers des points d'entreposage, notamment en Europe, en vue de leur réexportation; la destination ultime de ces produits est inconnue lorsqu'ils quittent le Canada.) Les données statistiques sont compilées et présentées pour chaque pays mentionné à la page 11 de la présente publication. Une classification des pays ainsi que l'exposé des limites territoriales employés aux fins de la statistique sont donnés dans l'édition de janvier de cette publication. Les modifications apportées à une année quelconque paraissent dans les pages bleues du rapport de janvier et de décembre de l'année concernée. Les "marchés principaux" apparaissant dans certains tableaux comprennent les groupements définis comme suit:

Autres C.E.E.: Allemagne (R.F.), Belgique, Danemark, France, Irlande, Italie, Luxembourg, Pays-Bas et Grèce (à partir de janvier 1981). Le Royaume-Uni est aussi membre de la C.E.E. mais il est séparé dans les statistiques à cause de son importance dans le commerce du Canada.

Autres O.C.D.E.: Autriche, Espagne, Finlande, Islande, Norvège, Portugal, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays membres de la C.E.E., les États-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.E. — l'Organisation pour la coopération et le développement économique.)

Autres Amérique: Cette catégorie comprend tous les pays et les territoires de l'Amérique du nord et du sud (sauf les États-Unis et le Canada), y compris le Groënland, les Bermudes et Porto Rico.

6. **Quantités:** Les tableaux 3 et 5 donnent, lorsqu'elles sont disponibles, les quantités exprimées dans la "Classification des marchandises d'exportation", (mentionnée ci-dessus); les unités sont définies à la page 8 de la présente publication. Le tableau 4 indique les quantités seulement là où toutes (ou presque toutes) les catégories d'un groupe utilisent la même mesure de quantité. Les mesures de poids ou de volume excluent habituellement l'emballage nécessaire à la livraison et les nombres représentent le nombre d'articles complets (ou presque complets) exportés sans les pièces.
7. **Évaluation:** Les exportations sont présentées selon les valeurs déclarées dans les documents d'exportation; il s'agit habituellement du prix de vente réel ou, dans le cas des opérations entre entreprises affiliées, du prix de transfert adopté par les sociétés à des fins comptables. La plupart des exportations sont évaluées au point du territoire du Canada (mine, ferme ou usine) où elles sont chargées et ainsi confiées à un transporteur en vue de leur exportation, mais une partie importante des exportations par eau ou par air se voit attribuer une valeur qui comprend les frais de transport vers le port d'exportation. Pour certaines livraisons par voie de terre vers les États-Unis, la valeur indiquée comprend en partie ou en totalité les frais de transport jusqu'à la destination ultime parce qu'on ne peut isoler et retrancher ces frais.
8. **Abbréviations:** Les noms de pays et de marchandises cités dans la présente publication sont souvent abrégés ou raccourcis. L'explication des abréviations des pays figure à la page 11 du présent rapport. Les lettres "n.d.a." signifient "non dénommé ailleurs".
9. **Rectifications:**
- a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le "Communiqué préliminaire sur le commerce du Canada" et le Sommaire du commerce extérieur (65-001) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$1,000,000. Les chiffres du mois courant dans Importations par marchandises (65-007), Exportations par marchandises (65-004), Importations par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.

- b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly reports 65-007 and 65-004.
- c. **Monthly data for previous years:** Data for the two years previous to the current year are subject to revision only once each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.

Note: Cumulative totals in all reports reflect all revisions applied up to the date of printing.

10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity or country detail, however, does not affect aggregate totals, which include all transactions reported during the calendar month.
11. **Notes on Sampling:** Commencing May 1, 1975, documents of exports to the United States valued at less than \$2,500 each have been subject to a 20 per cent systematic sample to provide estimates for low-value exports to the United States from Quebec, Ontario, Manitoba and British Columbia. Export documents to the United States exceeding \$2,500 from these provinces, all exports from other provinces to the United States and all exports to other countries, regardless of value, continue to be processed and compiled by complete count.

Once the document is selected through the sample procedure, the value and the quantity of each sample line are mechanically inflated by dividing by the sampling ratio. For example, if the sampling ratio were 1/5, all lines shown on the sampled documents would be multiplied by 5, and the estimates thus derived are included with the complete count statistics.

It should be noted that the aggregate value of low-value documents for exports to the United States from the four provinces mentioned above accounts for 3 per cent to 4 per cent of the export total, (4 per cent to 5 per cent for exports to United States) but accounts for some 43 per cent of all documents (some 49 per cent of documents for exports to the U.S.).

The estimated \$75 million a month of low-value U.S. exports is subject to a sampling variability of less than one per cent. This means that there is a 1 in 3 chance of the estimated value differing from the "true" value by more than 1 per cent and a 1 in 100 chance of a difference of more than 2.5 per cent.

Estimates for individual commodity classes are of course subject to varying degrees of sampling variability. The closeness of individual estimation to "true" values also varies with the universe of documents selected for the particular class in any particular sample. While it is difficult to represent this in tabular form, readers should be aware that the odds against a particular estimate being close to the true value by a specified percentage increase quite rapidly as the universe of documents upon which the estimate is based decreases.

- b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004.
- c. **Données mensuelles des années précédentes:** Les données pour les deux années antérieures à l'année courante sont sujettes à révision seulement une fois chaque année. Les chiffres mensuels par marchandise/pays qui seront rectifiés à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises ou pays ne modifie toutefois pas les totaux agrégés qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.
11. **Notes sur la méthode d'échantillonnage:** Depuis le 1er mai, 1975, on établit à partir d'un échantillon systématique de 20 p. 100 des documents concernant les exportations d'une valeur inférieure à \$2,500, des estimations sur les marchandises de faible valeur exportées aux États-Unis en provenance du Québec, de l'Ontario, du Manitoba et de la Colombie-Britannique. Les données sur les marchandises valant plus de \$2,500 exportées aux États-Unis de ces provinces, sur toutes les exportations des autres provinces aux États-Unis et sur toutes les exportations aux autres pays, quelle qu'en soit la valeur, continueront d'être dépouillées et compilées exhaustivement.

Pour chaque document sélectionné par sondage, on gonfle automatiquement la valeur et la quantité figurant sur chaque ligne, en les divisant par le taux d'échantillonnage. Par exemple, si le taux d'échantillonnage est de 1/5, les données sur chaque ligne des documents sélectionnés sont multipliées par 5 et les estimations ainsi calculées sont incorporées aux résultats de la compilation exhaustive.

Il convient de noter que les documents sur les exportations de faible valeur aux États-Unis des quatre provinces indiquées représentent de 3 p. 100 à 4 p. 100 de la valeur globale des exportations (de 4 p. 100 à 5 p. 100 des exportations aux États-Unis) mais quelque 43 p. 100 de l'ensemble des documents (environ 49 p. 100 des documents sur les exportations aux États-Unis).

Vu qu'elle résulte d'un sondage, la valeur estimative des marchandises de faible valeur exportées chaque mois aux États-Unis (environ \$75 millions de dollars) peut varier de moins de un pourcent par rapport à la valeur "réelle". Cela veut dire que, dans 1 cas sur 3, la valeur estimative diffère de la valeur réelle de plus de 1 p. 100, et dans 1 cas sur 100 d'une différence de plus de 2.5 p. 100.

La variabilité de sondage des estimations peut varier d'une catégorie de marchandises à une autre. L'écart entre chaque estimation et la valeur "réelle" varie également dans tout sondage en fonction de l'univers de documents sélectionnés pour chaque catégorie. Il est difficile de représenter ceci sous forme de tableau, mais le lecteur ne doit pas oublier que le nombre de chances d'obtenir une estimation ne différant pas de la valeur réelle de plus de tel pourcentage diminue rapidement si l'univers de documents qui sert de base à l'estimation se restreint.

Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Trade Information Unit
External Trade Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 995-6305) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

Newfoundland and Labrador	Zenith 0-7037
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192

Northwest Territories (area served by NorthwesTel Inc.)	Zenith 2-2015

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7.

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Sous-section des renseignements sur le commerce
Division du Commerce extérieur,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-6305) ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Un service d'appel interurbain sans frais est offert, dans toutes les provinces et dans les territoires, aux **utilisateurs qui habitent à l'extérieur des zones de communication locale** des centres régionaux de consultation.

4. Réexportations par groupes et pays	266
5. Transactions spéciales hors commerce 990-65 - 995-89	309

1. **Source of Statistics:** Export documents collected by Canada Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, crude petroleum and natural gas exported by pipeline are reported by companies directly to Statistics Canada.
2. **Timing:** Until July 1979, statistics for a month included all shipments for which Customs documents were received at Statistics Canada up to, and including, the last working day of the month. Starting with data for August 1979, the closing of the statistical month is defined according to the last calendar day of the month, based as closely as practicable, on the date of clearance from Customs. Individual shipments may not be recorded in statistics until some time after their arrival or departure because of administrative procedures which permit late filing of documents. Trade in electricity, exports of both crude petroleum and natural gas, and imports of "Swap Oil" from the United States for a given month are included in the statistics for the following month because they are collected too late for inclusion in statistics for the month indicated.
3. **Coverage:**
 - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have since been changed in form by further processing and then exported.
 - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or blending are not considered as changing the condition of imported goods.
 - c. **Total Exports:** These statistics are the sum of a. and b. above.
 - d. **Exclusions:** The following commodity movements are excluded from export statistics (being however recorded separately as Special Transaction — Non-trade in Table 5): settlers' effects; private donation and gifts; identifiable tourist purchases; goods shipped to Canadian diplomatic or military personnel abroad or by foreign representatives in Canada; temporary exports for exhibition or competition, including films for processing. Bunker supplies and ships' stores sold to foreign vessels or aircraft in Canada, temporary exports (other than contractors' equipment shown under commodity code 970-20) and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
4. **Classification:** Commodities are classified to the *Export Commodity Classification (XCC)*, which is based on the "Standard Commodity Classification" (cf. cat. no. 12-502, Statistics Canada).
1. **Source des statistiques:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes canadiennes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur les exportations d'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national d'énergie, tandis que les compagnies exportatrices de pétrole brut et de gaz naturel par oléoduc fournissent directement leurs rapports à Statistique Canada.
2. **Période:** Jusqu'à juillet 1979, les statistiques d'un mois donné visaient toutes les livraisons pour lesquelles Statistique Canada a reçu des documents de douane jusqu'au dernier jour ouvrable du mois. À partir du mois d'août 1979, la fin du mois statistique correspond au dernier jour du mois civil où s'effectue, dans la mesure du possible, le dédouanement. De diverses livraisons peuvent ne pas être prises en compte dès leur arrivée ou leur départ à cause de la procédure administrative qui donne lieu à une présentation tardive des documents. Le commerce d'énergie électrique, les exportations de pétrole brut et de gaz naturel et les importations selon l'arrangement avec les États-Unis pour des échanges de pétrole brut d'un mois donné sont présentés dans les statistiques du mois suivant parce qu'on obtient les données trop tard pour qu'elles puissent faire partie des statistiques du mois de référence.
3. **Couverture:**
 - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau puis exportées.
 - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou l'assemblage ne modifient pas l'état des marchandises importées.
 - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
 - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (ils sont toutefois classés séparément comme Transactions spéciales — hors commerce dans le tableau 5): les effets d'émigrants; les dons et cadeaux privés; les achats identifiables des touristes; les marchandises expédiées aux diplomates ou militaires canadiens affectés à l'étranger ou par les diplomates étrangers au Canada; les exportations provisoires pour les expositions ou les concours, y compris les films exportés en vue de leur développement. Les approvisionnements de soute et de bord vendus aux navires et avions étrangers au Canada, les exportations provisoires (autres que le matériel des entrepreneurs, qui apparaît sous le code des produits no 970-20) et les marchandises qui séjournent temporairement en transit en territoire canadien, ne figurent dans aucune statistique.
4. **Classification:** Les marchandises sont classées dans la "Classification des marchandises d'exportation" (CME) qui se fonde sur la "Classification type des marchandises" (no 12-502 au cat. de Statistique Canada).

5. **Country and area of destination:** Exports are classified to the country to which they are consigned at the time the goods leave Canada, i.e. to the furthest known destination. (Many primary products are shipped to entrepôt points, particularly in Europe, for re-export to the ultimate destination which is unknown when the goods leave Canada.) Statistics are compiled and presented for the individual countries listed on page 10 of this report. A classification of countries with a statement of territorial limits used for statistical purposes will be found in the January issue of this publication. Amendments effective in any year are listed in the blue pages of the January and December reports for that year. The "principal trading area" shown in some tables include groupings which are defined as follows:
- Other E.E.C.:** Belgium, Denmark, France, Germany (F.R.), Ireland, Italy, Luxembourg, Netherlands and Greece (effective January 1981). The United Kingdom is also a member of the E.E.C. but is shown separately because of the importance of its trade with Canada.
- Other O.E.C.D.:** Austria, Finland, Iceland, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D. — The Organization for Economic Cooperation and Development).
- Other America:** This group includes all countries and territories of North and South America (other than the United States and Canada) including Greenland, Bermuda and Puerto Rico.
6. **Quantities:** Tables 3 and 5 show quantities, where available, in terms of the units specified for each class in the "Export Commodity Classification", (cf. above), and defined on page 8 of this report. Table 4 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity. Measures of weight or volume exclude any packing required for shipment; and numbers refer to complete (or substantially complete) units exported, excluding parts.
7. **Valuation:** Exports are recorded at the values declared on export documents, which usually reflect the actual selling price or, in the case of non-arms-length transactions, the transfer price used for company accounting purposes. Most exports are valued at the place in Canada where they are laden aboard a carrier for export (e.g. mine, farm or factory) but a significant proportion of exports by water or air reflect values which include transportation charges to the port of export. Some overland shipments to the United States are recorded at a value which includes part or all of the transportation charges to the ultimate destination because such transportation charges cannot be identified and removed.
8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 10 of this report. The letters "n.e.s." mean "not elsewhere specified".
9. **Revisions:**
- a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the "Preliminary Statement of Canadian Trade" and in the Summary of External Trade (65-001) have not been audited for reporting or processing errors with the exception of transactions of \$1,000,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.
5. **Pays et région de destination:** Les exportations sont attribuées au pays vers lequel les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue. (De nombreux produits "primaires" sont expédiés vers des points d'entrepôt, notamment en Europe, en vue de leur réexportation; la destination ultime de ces produits est inconnue lorsqu'ils quittent le Canada.) Les données statistiques sont compilées et présentées pour chaque pays mentionné à la page 11 de la présente publication. Une classification des pays ainsi que l'exposé des limites territoriales employés aux fins de la statistique sont donnés dans l'édition de janvier de cette publication. Les modifications apportées à une année quelconque paraissent dans les pages bleues du rapport de janvier et de décembre de l'année concernée. Les "marchés principaux" apparaissant dans certains tableaux comprennent les groupements définis comme suit:
- Autres C.E.E.:** Allemagne (R.F.), Belgique, Danemark, France, Irlande, Italie, Luxembourg, Pays-Bas et Grèce (à partir de janvier 1981). Le Royaume-Uni est aussi membre de la C.E.E. mais il est séparé dans les statistiques à cause de son importance dans le commerce du Canada.
- Autres O.C.D.E.:** Autriche, Espagne, Finlande, Islande, Norvège, Portugal, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays membres de la C.E.E., les États-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.E. — l'Organisation pour la coopération et le développement économique.)
- Autres Amérique:** Cette catégorie comprend tous les pays et les territoires de l'Amérique du nord et du sud (sauf les États-Unis et le Canada), y compris le Groënland, les Bermudes et Porto Rico.
6. **Quantités:** Les tableaux 3 et 5 donnent, lorsqu'elles sont disponibles, les quantités exprimées dans la "Classification des marchandises d'exportation", (mentionnée ci-dessus); les unités sont définies à la page 8 de la présente publication. Le tableau 4 indique les quantités seulement là où toutes (ou presque toutes) les catégories d'un groupe utilisent la même mesure de quantité. Les mesures de poids ou de volume excluent habituellement l'emballage nécessaire à la livraison et les nombres représentent le nombre d'articles complets (ou presque complets) exportés sans les pièces.
7. **Evaluation:** Les exportations sont présentées selon les valeurs déclarées dans les documents d'exportation; il s'agit habituellement du prix de vente réel ou, dans le cas des opérations entre entreprises affiliées, du prix de transfert adopté par les sociétés à des fins comptables. La plupart des exportations sont évaluées au point du territoire du Canada (mine, ferme ou usine) où elles sont chargées et ainsi confiées à un transporteur en vue de leur exportation, mais une partie importante des exportations par eau ou par air se voit attribuer une valeur qui comprend les frais de transport vers le port d'exportation. Pour certaines livraisons par voie de terre vers les États-Unis, la valeur indiquée comprend en partie ou en totalité les frais de transport jusqu'à la destination ultime parce qu'on ne peut isoler et retrancher ces frais.
8. **Abréviations:** Les noms de pays et de marchandises cités dans la présente publication sont souvent abrégés ou raccourcis. L'explication des abréviations des pays figure à la page 11 du présent rapport. Les lettres "n.d.a." signifient "non dénommé ailleurs".
9. **Rectifications:**
- a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le "Communiqué préliminaire sur le commerce du Canada" et le Sommaire du commerce extérieur (65-001) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$1,000,000. Les chiffres du mois courant dans Importations par marchandises (65-007), Exportations par marchandises (65-004), Importations par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.

- b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly reports 65-007 and 65-004.
- c. **Monthly data for previous years:** Data for the two years previous to the current year are subject to revision only once each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.

Note: Cumulative totals in all reports reflect all revisions applied up to the date of printing.

- b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004.
- c. **Données mensuelles des années précédentes:** Les données pour les deux années antérieures à l'année courante sont sujettes à révision seulement une fois chaque année. Les chiffres mensuels par marchandise/pays qui seront rectifiés à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity or country detail, however, does not affect aggregate totals, which include all transactions reported during the calendar month.
11. **Notes on Sampling:** Commencing May 1, 1975, documents of exports to the United States valued at less than \$2,500 each have been subject to a 20 per cent systematic sample to provide estimates for low-value exports to the United States from Quebec, Ontario, Manitoba and British Columbia. Export documents to the United States exceeding \$2,500 from these provinces, all exports from other provinces to the United States and all exports to other countries, regardless of value, continue to be processed and compiled by complete count.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises ou pays ne modifie toutefois pas les totaux agrégés qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.
11. **Notes sur la méthode d'échantillonnage:** Depuis le 1er mai, 1975, on établit à partir d'un échantillon systématique de 20 p. 100 des documents concernant les exportations d'une valeur inférieure à \$2,500, des estimations sur les marchandises de faible valeur exportées aux États-Unis en provenance du Québec, de l'Ontario, du Manitoba et de la Colombie-Britannique. Les données sur les marchandises valant plus de \$2,500 exportées aux États-Unis de ces provinces, sur toutes les exportations des autres provinces aux États-Unis et sur toutes les exportations aux autres pays, quelle qu'en soit la valeur, continueront d'être dépouillées et compilées exhaustivement.

Once the document is selected through the sample procedure, the value and the quantity of each sample line are mechanically inflated by dividing by the sampling ratio. For example, if the sampling ratio were 1/5, all lines shown on the sampled documents would be multiplied by 5, and the estimates thus derived are included with the complete count statistics.

Pour chaque document sélectionné par sondage, on gonfle automatiquement la valeur et la quantité figurant sur chaque ligne, en les divisant par le taux d'échantillonnage. Par exemple, si le taux d'échantillonnage est de 1/5, les données sur chaque ligne des documents sélectionnés sont multipliées par 5 et les estimations ainsi calculées sont incorporées aux résultats de la compilation exhaustive.

It should be noted that the aggregate value of low-value documents for exports to the United States from the four provinces mentioned above accounts for 3 per cent to 4 per cent of the export total, (4 per cent to 5 per cent for exports to United States) but accounts for some 43 per cent of all documents (some 49 per cent of documents for exports to the U.S.).

Il convient de noter que les documents sur les exportations de faible valeur aux États-Unis des quatre provinces indiquées représentent de 3 p. 100 à 4 p. 100 de la valeur globale des exportations (de 4 p. 100 à 5 p. 100 des exportations aux États-Unis) mais quelque 43 p. 100 de l'ensemble des documents (environ 49 p. 100 des documents sur les exportations aux États-Unis).

The estimated \$75 million a month of low-value U.S. exports is subject to a sampling variability of less than one per cent. This means that there is a 1 in 3 chance of the estimated value differing from the "true" value by more than 1 per cent and a 1 in 100 chance of a difference of more than 2.5 per cent.

Vu qu'elle résulte d'un sondage, la valeur estimative des marchandises de faible valeur exportées chaque mois aux États-Unis (environ \$75 millions de dollars) peut varier de moins de un pourcent par rapport à la valeur "réelle". Cela veut dire que, dans 1 cas sur 3, la valeur estimative diffère de la valeur réelle de plus de 1 p. 100, et dans 1 cas sur 100 d'une différence de plus de 2.5 p. 100.

Estimates for individual commodity classes are of course subject to varying degrees of sampling variability. The closeness of individual estimation to "true" values also varies with the universe of documents selected for the particular class in any particular sample. While it is difficult to represent this in tabular form, readers should be aware that the odds against a particular estimate being close to the true value by a specified percentage increase quite rapidly as the universe of documents upon which the estimate is based decreases.

La variabilité de sondage des estimations peut varier d'une catégorie de marchandises à une autre. L'écart entre chaque estimation et la valeur "réelle" varie également dans tout sondage en fonction de l'univers de documents sélectionnés pour chaque catégorie. Il est difficile de représenter ceci sous forme de tableau, mais le lecteur ne doit pas oublier que le nombre de chances d'obtenir une estimation ne différant pas de la valeur réelle de plus de tel pourcentage diminue rapidement si l'univers de documents qui sert de base à l'estimation se restreint.

Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Trade Information Unit
External Trade Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 995-6305) or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

Newfoundland and Labrador	Zenith 0-7037
Nova Scotia, New Brunswick and Prince Edward Island	1-800-565-7192

Ontario	1-800-268-1151
Manitoba	1-800-282-8006
Saskatchewan	1(112)800-667-3524
Alberta	1-800-222-6400
British Columbia (South and Central)	112-800-663-1551
Yukon and Northern B.C. (area served by NorthwesTel Inc.)	Zenith 0-8913
Northwest Territories (area served by NorthwesTel Inc.)	Zenith 2-2015

How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7.

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingué et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Sous-section des renseignements sur le commerce
Division du Commerce extérieur,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 995-6305) ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(359-5405)
Ottawa	(992-4734)	Edmonton	(420-3027)
Toronto	(966-6586)	Vancouver	(666-3691)

Un service d'appel interurbain sans frais est offert, dans toutes les provinces et dans les territoires, aux **utilisateurs qui habitent à l'extérieur des zones de communication locale** des centres régionaux de consultation.

1. **Source of Statistics:** Export documents collected by Canada Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, crude petroleum and natural gas exported by pipeline are reported by companies directly to Statistics Canada.
 2. **Timing:** Until July 1979, statistics for a month included all shipments for which Customs documents were received at Statistics Canada up to, and including, the last working day of the month. Starting with data for August 1979, the closing of the statistical month is defined according to the last calendar day of the month, based as closely as practicable, on the date of clearance from Customs. Individual shipments may not be recorded in statistics until some time after their arrival or departure because of administrative procedures which permit late filing of documents. Trade in electricity, exports of both crude petroleum and natural gas, and imports of "Swap Oil" from the United States for a given month are included in the statistics for the following month because they are collected too late for inclusion in statistics for the month indicated.
 3. **Coverage:**
 - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have since been changed in form by further processing and then exported.
 - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or blending are not considered as changing the condition of imported goods.
 - c. **Total Exports:** These statistics are the sum of a. and b. above.
 - d. **Exclusions:** The following commodity movements are excluded from export statistics (being however recorded separately as Special Transaction — Non-trade in Table 5): settlers' effects; private donation and gifts; identifiable tourist purchases; goods shipped to Canadian diplomatic or military personnel abroad or by foreign representatives in Canada; temporary exports for exhibition or competition, including films for processing. Bunker supplies and ships' stores sold to foreign vessels or aircraft in Canada, temporary exports (other than contractors' equipment shown under commodity code 970-20) and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
 4. **Classification:** Commodities are classified to the *Export Commodity Classification* (XCC), which is based on the "Standard Commodity Classification" (cf. cat. no. 12-502, Statistics Canada).
1. **Source des statistiques:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes canadiennes, sauf dans le cas des données sur l'électricité, le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur les exportations d'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national d'énergie, tandis que les compagnies exportatrices de pétrole brut et de gaz naturel par oléoduc fournissent directement leurs rapports à Statistique Canada.
 2. **Période:** Jusqu'à juillet 1979, les statistiques d'un mois donné visaient toutes les livraisons pour lesquelles Statistique Canada a reçu des documents de douane jusqu'au dernier jour ouvrable du mois. À partir du mois d'août 1979, la fin du mois statistique correspond au dernier jour du mois civil où s'effectue, dans la mesure du possible, le dédouanement. De diverses livraisons peuvent ne pas être prises en compte dès leur arrivée ou leur départ à cause de la procédure administrative qui donne lieu à une présentation tardive des documents. Le commerce d'énergie électrique, les exportations de pétrole brut et de gaz naturel et les importations selon l'arrangement avec les États-Unis pour des échanges de pétrole brut d'un mois donné sont présentés dans les statistiques du mois suivant parce qu'on obtient les données trop tard pour qu'elles puissent faire partie des statistiques du mois de référence.
 3. **Couverture:**
 - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau puis exportées.
 - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou l'assemblage ne modifient pas l'état des marchandises importées.
 - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
 - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (ils sont toutefois classés séparément comme Transactions spéciales — hors commerce dans le tableau 5): les effets d'émigrants; les dons et cadeaux privés; les achats identifiables des touristes; les marchandises expédiées aux diplomates ou militaires canadiens affectés à l'étranger ou par les diplomates étrangers au Canada; les exportations provisoires pour les expositions ou les concours, y compris les films exportés en vue de leur développement. Les approvisionnements de soute et de bord vendus aux navires et avions étrangers au Canada, les exportations provisoires (autres que le matériel des entrepreneurs, qui apparaît sous le code des produits no 970-20) et les marchandises qui séjournent temporairement en transit en territoire canadien, ne figurent dans aucune statistique.
 4. **Classification:** Les marchandises sont classées dans la "Classification des marchandises d'exportation" (CME) qui se fonde sur la "Classification type des marchandises" (no 12-502 au cat. de Statistique Canada).

5. **Country and area of destination:** Exports are classified to the country to which they are consigned at the time the goods leave Canada, i.e. to the furthest known destination. (Many primary products are shipped to entrepôt points, particularly in Europe, for re-export to the ultimate destination which is unknown when the goods leave Canada.) Statistics are compiled and presented for the individual countries listed on page 10 of this report. A classification of countries with a statement of territorial limits used for statistical purposes will be found in the January issue of this publication. Amendments effective in any year are listed in the blue pages of the January and December reports for that year. The "principal trading area" shown in some tables include groupings which are defined as follows:

Other E.E.C.: Belgium, Denmark, France, Germany (F.R.), Ireland, Italy, Luxembourg, Netherlands and Greece (effective January 1981). The United Kingdom is also a member of the E.E.C. but is shown separately because of the importance of its trade with Canada.

Other O.E.C.D.: Austria, Finland, Iceland, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D. — The Organization for Economic Cooperation and Development).

Other America: This group includes all countries and territories of North and South America (other than the United States and Canada) including Greenland, Bermuda and Puerto Rico.

6. **Quantities:** Tables 3 and 5 show quantities, where available, in terms of the units specified for each class in the "Export Commodity Classification", (cf. above), and defined on page 8 of this report. Table 4 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity. Measures of weight or volume exclude any packing required for shipment; and numbers refer to complete (or substantially complete) units exported, excluding parts.
7. **Valuation:** Exports are recorded at the values declared on export documents, which usually reflect the actual selling price or, in the case of non-arms-length transactions, the transfer price used for company accounting purposes. Most exports are valued at the place in Canada where they are laden aboard a carrier for export (e.g. mine, farm or factory) but a significant proportion of exports by water or air reflect values which include transportation charges to the port of export. Some overland shipments to the United States are recorded at a value which includes part or all of the transportation charges to the ultimate destination because such transportation charges cannot be identified and removed.
8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 10 of this report. The letters "n.e.s." mean "not elsewhere specified".
9. **Revisions:**

- a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the "Preliminary Statement of Canadian Trade" and in the Summary of External Trade (65-001) have not been audited for reporting or processing errors with the exception of transactions of \$1,000,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.

5. **Pays et région de destination:** Les exportations sont attribuées au pays vers lequel les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue. (De nombreux produits "primaires" sont expédiés vers des points d'entreposage, notamment en Europe, en vue de leur réexportation; la destination ultime de ces produits est inconnue lorsqu'ils quittent le Canada.) Les données statistiques sont compilées et présentées pour chaque pays mentionné à la page 11 de la présente publication. Une classification des pays ainsi que l'exposé des limites territoriales employés aux fins de la statistique sont donnés dans l'édition de janvier de cette publication. Les modifications apportées à une année quelconque paraissent dans les pages bleues du rapport de janvier et de décembre de l'année concernée. Les "marchés principaux" apparaissant dans certains tableaux comprennent les groupes définis comme suit:

Autres C.E.E.: Allemagne (R.F.), Belgique, Danemark, France, Irlande, Italie, Luxembourg, Pays-Bas et Grèce (à partir de janvier 1981). Le Royaume-Uni est aussi membre de la C.E.E. mais il est séparé dans les statistiques à cause de son importance dans le commerce du Canada.

Autres O.C.D.E.: Autriche, Espagne, Finlande, Islande, Norvège, Portugal, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays membres de la C.E.E., les États-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.E. — l'Organisation pour la coopération et le développement économique.)

Autres Amérique: Cette catégorie comprend tous les pays et les territoires de l'Amérique du nord et du sud (sauf les États-Unis et le Canada), y compris le Groënland, les Bermudes et Porto Rico.

6. **Quantités:** Les tableaux 3 et 5 donnent, lorsqu'elles sont disponibles, les quantités exprimées dans la "Classification des marchandises d'exportation", (mentionnée ci-dessus); les unités sont définies à la page 8 de la présente publication. Le tableau 4 indique les quantités seulement là où toutes (ou presque toutes) les catégories d'un groupe utilisent la même mesure de quantité. Les mesures de poids ou de volume excluent habituellement l'emballage nécessaire à la livraison et les nombres représentent le nombre d'articles complets (ou presque complets) exportés sans les pièces.
7. **Évaluation:** Les exportations sont présentées selon les valeurs déclarées dans les documents d'exportation; il s'agit habituellement du prix de vente réel ou, dans le cas des opérations entre entreprises affiliées, du prix de transfert adopté par les sociétés à des fins comptables. La plupart des exportations sont évaluées au point du territoire du Canada (mine, ferme ou usine) où elles sont chargées et ainsi confiées à un transporteur en vue de leur exportation, mais une partie importante des exportations par eau ou par air se voit attribuer une valeur qui comprend les frais de transport vers le port d'exportation. Pour certaines livraisons par voie de terre vers les États-Unis, la valeur indiquée comprend en partie ou en totalité les frais de transport jusqu'à la destination ultime parce qu'on ne peut isoler et retrancher ces frais.
8. **Abbréviations:** Les noms de pays et de marchandises cités dans la présente publication sont souvent abrégés ou raccourcis. L'explication des abréviations des pays figure à la page 11 du présent rapport. Les lettres "n.d.a." signifient "non dénommé ailleurs".
9. **Rectifications:**

- a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le "Communiqué préliminaire sur le commerce du Canada" et le Sommaire du commerce extérieur (65-001) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$1,000,000. Les chiffres du mois courant dans Importations par marchandises (65-007), Exportations par marchandises (65-004), Importations par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.

- b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly reports 65-007 and 65-004.
- c. **Monthly data for previous years:** Data for the two years previous to the current year are subject to revision only once each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.

Note: Cumulative totals in all reports reflect all revisions applied up to the date of printing.

10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity or country detail, however, does not affect aggregate totals, which include all transactions reported during the calendar month.
11. **Notes on Sampling:** Commencing May 1, 1975, documents of exports to the United States valued at less than \$2,500 each have been subject to a 20 per cent systematic sample to provide estimates for low-value exports to the United States from Quebec, Ontario, Manitoba and British Columbia. Export documents to the United States exceeding \$2,500 from these provinces, all exports from other provinces to the United States and all exports to other countries, regardless of value, continue to be processed and compiled by complete count.

Once the document is selected through the sample procedure, the value and the quantity of each sample line are mechanically inflated by dividing by the sampling ratio. For example, if the sampling ratio were 1/5, all lines shown on the sampled documents would be multiplied by 5, and the estimates thus derived are included with the complete count statistics.

It should be noted that the aggregate value of low-value documents for exports to the United States from the four provinces mentioned above accounts for 3 per cent to 4 per cent of the export total, (4 per cent to 5 per cent for exports to United States) but accounts for some 43 per cent of all documents (some 49 per cent of documents for exports to the U.S.).

The estimated \$75 million a month of low-value U.S. exports is subject to a sampling variability of less than one per cent. This means that there is a 1 in 3 chance of the estimated value differing from the "true" value by more than 1 per cent and a 1 in 100 chance of a difference of more than 2.5 per cent.

Estimates for individual commodity classes are of course subject to varying degrees of sampling variability. The closeness of individual estimation to "true" values also varies with the universe of documents selected for the particular class in any particular sample. While it is difficult to represent this in tabular form, readers should be aware that the odds against a particular estimate being close to the true value by a specified percentage increase quite rapidly as the universe of documents upon which the estimate is based decreases.

- b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004.
- c. **Données mensuelles des années précédentes:** Les données pour les deux années antérieures à l'année courante sont sujettes à révision seulement une fois chaque année. Les chiffres mensuels par marchandise/pays qui seront rectifiées à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises ou pays ne modifie toutefois pas les totaux agrégés qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.
11. **Notes sur la méthode d'échantillonnage:** Depuis le 1er mai, 1975, on établit à partir d'un échantillon systématique de 20 p. 100 des documents concernant les exportations d'une valeur inférieure à \$2,500, des estimations sur les marchandises de faible valeur exportées aux États-Unis en provenance du Québec, de l'Ontario, du Manitoba et de la Colombie-Britannique. Les données sur les marchandises valant plus de \$2,500 exportées aux États-Unis de ces provinces, sur toutes les exportations des autres provinces aux États-Unis et sur toutes les exportations aux autres pays, quelle qu'en soit la valeur, continueront d'être dépouillées et compilées exhaustivement.

Pour chaque document sélectionné par sondage, on gonfle automatiquement la valeur et la quantité figurant sur chaque ligne, en les divisant par le taux d'échantillonnage. Par exemple, si le taux d'échantillonnage est de 1/5, les données sur chaque ligne des documents sélectionnés sont multipliées par 5 et les estimations ainsi calculées sont incorporées aux résultats de la compilation exhaustive.

Il convient de noter que les documents sur les exportations de faible valeur aux États-Unis des quatre provinces indiquées représentent de 3 p. 100 à 4 p. 100 de la valeur globale des exportations (de 4 p. 100 à 5 p. 100 des exportations aux États-Unis) mais quelque 43 p. 100 de l'ensemble des documents (environ 49 p. 100 des documents sur les exportations aux États-Unis).

Vu qu'elle résulte d'un sondage, la valeur estimative des marchandises de faible valeur exportées chaque mois aux États-Unis (environ \$75 millions de dollars) peut varier de moins de un pourcent par rapport à la valeur "réelle". Cela veut dire que, dans 1 cas sur 3, la valeur estimative diffère de la valeur réelle de plus de 1 p. 100, et dans 1 cas sur 100 d'une différence de plus de 2.5 p. 100.

La variabilité de sondage des estimations peut varier d'une catégorie de marchandises à une autre. L'écart entre chaque estimation et la valeur "réelle" varie également dans tout sondage en fonction de l'univers de documents sélectionnés pour chaque catégorie. Il est difficile de représenter ceci sous forme de tableau, mais le lecteur ne doit pas oublier que le nombre de chances d'obtenir une estimation ne différant pas de la valeur réelle de plus de tel pourcentage diminue rapidement si l'univers de documents qui sert de base à l'estimation se restreint.
